**ACCU TECH ENGINEERS**

## About Us

Since its establishment in the year 2008, Accu Tech Engineers has been engaged in manufacturing, supplying and exporting of high performance oriented material handling equipment. These include Cranes, Hoists, Goods Lift (Hydraulic & Hoist), Passenger Lifts, Custom Made Material Handling Equipments, Cabins and Doors, Overhead EOT Cranes, Goliath Cranes, EOT Cranes, Monorail Cranes, JIB Cranes and GANTRY Cranes.

We have a sound infrastructure setup to carry out fabrication process of our material handling equipment. It is backed by latest process machinery and facilities and is efficiently managed by diligent workforce. We strictly adhere to international production standards and maintain quality throughout the production till delivery of the consignment. We use fine grade raw material like En8 & En24 rods MS sheets, MS angles, beam, motors and brakes that are procured from reputed vendors. This allow us to provide flawless functionality and durable service life to the offered equipment range.

Being one of the fastest growing companies, we participate in various trade shows and promotional events that assist us in reaching a wider customer base. Some of the events we have participated include CODISSIA, BUILD TECH and many others. An SSI unit, our consistency in delivering qualitative range of end equipment has also helped us in making many clients across the country including PRICOL, Aqua Sub, CRI pumps, Sri rangathan industries, LGB, BEML, india nippon, Co india ltd, LMW, LRT, ideal pumps, Nerolac paints Esskay Steels, Anandha Corporation.

## SGEOT CRANES

We are known as a firm offering excellent quality SGEOT Cranes which can be availed as per the specific requirement of the clients. These products are manufactured in accordance with the internationally approved parameters for quality.

Post production, each product is stringently tested on diverse parameters to ensure their defect free nature. Our Products can be availed in different sizes and other specifications, to suit the specific requirements of the customers.

Technical Specifications :

**Capacity - 0.5 Ton to 12 Tons**

With an enriching experience in our domain, we put forth a quality tested ranges of Double Beam EOT Crane. These blades are manufactured using high grade raw material thus bringing out a product that has exceptional strength and long functional life.

Clients can avail these products from us in varied sizes, depending on their needs.

Technical Specifications :

**Capacity - 0.5 Ton to 20 Tons**

## DGEOT CRANES

## A FRAME CRANES

We bring forth A Frame Cranes for lifting heavy objects in machine shops, foundries and engineering industry. These are manufactured with the use of quality tested MS sheets, MS angles, I beam, brakes and motors.

Its excellent performance and low maintenance needs have won it enormous appreciation.

Technical Specifications :

**Capacity - 0.5 Ton to 10 Tons**

Our range of Gantry Cranes is utilized in various industries for carrying heavy industrial objects or materials. Quality MS Sheet, I Beam, MS angles, motors and brakes are used to manufacture the cranes.

Its trouble-free performance and sturdy construction make it suitable to be used in engineering industry, foundries and machine shop.

Technical Specifications :

**Capacity - 0.5 Ton to 12 Tons**

## GANTRY CRANES

## HEAVY DUTY CRANES

Offered by us are Heavy Duty Cranes for the engineering industry and foundries. These cranes are manufactured using quality components, which assure their excellent performance and trouble-free functioning.

For the convenience of our clients, we offer these cranes in a number of specifications. To ensure the delivery of flawless cranes, we test them on several parameters.

We are engaged in manufacturing and supplying Overhead Traveling Cranes in various specifications. These sturdy cranes are in tandem with the defined industry standards.

Due to their low maintenance requirements and easy to use controls, these have found usage in engineering industry, foundries and machine shops.

Our cranes are offered at reasonable prices and are tested stringently on varied parameters before getting supplied to clients.

## OVERHEAD TRAVELING CRANES

## UNDERSLUNG CRANES

We have gained expertise in providing our clients with Underslung that are widely used in various industries like construction, textile, automobiles and heavy duty engineering.

All our cranes are designed and developed using premium raw material and latest technology to ensure that these meet with international quality norms & standards.

In addition to this, we provide customization as per the specifications laid down by the customers to fulfill their requirements & demands.

Technical Specifications :

**Capacity - 0.25 Ton to 5 Tons**

Capitalizing on our domain expertise we offer an immaculate of jib Crane to our prestigious clients. Our range of jib Cranes find use in industrial premises, warehouse buildings and on military vehicles for the purpose lifting heavy weight goods.

These cranes are manufactured in adherence with the internationally approved parameters of quality. Post production, each product undergoes strict quality testing so as to ensure defect free products.

Technical Specifications :

**Capacity - 0.5 Ton to 5 Tons**

## INDUSTRIAL JIB CRANE

# ACCU TECH ENGINEERS

## HOISTING GOODS LIFT

With our rich industrial experience, we are able to offer clients an array of Hoisting Goods Lift. These Lifts are manufactured using premium grade raw material and advance techniques.

Moreover, these are precisely tested on various quality parameters before the final dispatch. The products offered by us are widely appreciated in the market for following attributes :

Technical Specifications :  
**Capacity - 0.5 Ton to 5 Tons**

Made available by us is a wide range of hydraulic Goods Lift, which is precisely designed by deft professionals and is made using high grade raw material.

These products are extensively utilized for the purpose of loading and unloading material and for shifting heavy components from one floor to another. Owing to the below listed attributes, our range has been widely demanded by the clients :

Technical Specifications :  
**Capacity - 0.5 Ton to 2 Tons**

## HYDRAULIC GOODS LIFT

## MONORAIL CRANES

Leveraging on our enriching expertise, we are able to put forth a broad array of Monorails Cranes. These products are designed and manufactured considering the internationally approved parameters of quality.

We make use of raw material and other components like I beam, MS sheets, MS angles, motors and brakes to manufacture our products

Technical Specifications :  
**Capacity - 0.5 Ton to 5 Tons**

We are offering a range of Electric Wire Rope Hoists in several models for our clients. These hoists are manufactured using MS sheets, I beam, MS angles, brakes, motors and other quality raw material.

Due to their low maintenance and optimum performance, these are widely demanded in foundries, machine shop and engineering industry. We can customize these hoists as per the specific needs of our clients.

Technical Specifications :  
**Capacity - 0.5 Ton to 12 Tons**

## ELECTRIC WIRE ROPE HOIST

# ACCU TECH ENGINEERS

## ELECTRIC WIRE ROPE CRAB

Clients can avail from us a quality adhering range of Electric Wire Rope Crab, which can be availed at industry leading prices.

The products offered by us are manufactured by making use of quality approved raw material and thoroughly tested to ensure a defect free delivery to the client.

Heavy engineering industry finds this product useful during maintenance activities.

Technical Specifications :  
**Capacity - 3 Ton to 20 Tons**

We make available an unparalleled range of Wire Rope Winches, which is used for the purpose of lifting heavy load and carrying the same at a high speed.

The winches offered by us in strict compliance with the internationally approved parameters of quality. Owing to their strength, efficiency and safe operation.

Technical Specifications :  
**Capacity - 0.5 Ton to 10 Tons**

## WINCHES

## MOBILE JIB CRANE

We are one of the leading firm engaged in offering a wide assortment of Mobile Jib Crane. These cranes are used to load & unload heavy material and transfer the same from trucks into the open yard.

Additionally, These cranes find usage for the purpose carrying goods inside shops. Furthermore, These cranes are utilized for performing various loading & unloading jobs on machine tools. A unique feature of these mobile Jib Cranes is that these can be adjusted at different heights.

Technical Specifications :  
**Capacity - 0.5 Ton to 2 Tons**

With the continuous support of our professionals and latest manufacturing techniques, we present a quality range of Hydraulic Pallet Truck.

These pallet trucks are rugged in construction and are known for their corrosion resistance. Simple to maintain, these are used in varied industries and are offered at market leading prices.

Technical Specifications :  
**Capacity- 2.5 Ton to 5 Tons**

## HYDRAULIC PALLET TRUCK

# ACCU TECH ENGINEERS

## HYDRAULIC MANUAL STACKER

We offer that are apt for loading and unloading heavy materials from trucks and transporting them to a storage facility. This equipment is capable of carrying a load of about 2 tons because it is made up of heavy duty steel.

These Hydraulic Stackers are used extensively in cargo companies, warehouses, dockyards and marine industry and they find their use to lift and store pallets. The features of the Manual Hydraulic Stacker are as follows

Technical Specifications :

**Capacity- 1.5 Ton to 3 Tons**

## SCISSOR LIFT TABLES

Technical Specifications :

**Capacity- 1 Ton to 5 Tons**

## INDUSTRIAL TROLLEY

## DRUM TROLLEY

Technical Specifications :

**Capacity- 100 - 500 kgs**

## SEMI ELECTRIC STACKER

Technical Specifications :

**Capacity- 1000 kgs to 3000 kgs**

## DRUM LIFTER

Technical Specifications :

**Capacity- 100 - 1000 kgs**

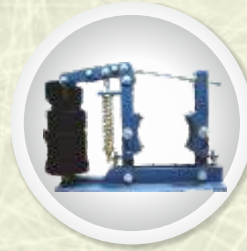

**LIMIT SWITCH**

**ROTARY LIMIT SWITCH**

**HYDRAULIC BRAKE**

**BUFFER**

**DISC BRAKE**

**CONTROL PENDENT**

**SAFELINE**

**CHAIN BLOCK**

**SQUARE TUBE TROLLEY**

**CABLE TROLLEY**

**METAL TROLLEY**

**INDUSTRIAL TROLLEY**
